

# Online Training Joining Instructions

## Screens

It is highly recommended that access to a secondary screen is available. This can be:

- a second monitor connected to your computer (a TV will also work)
- a second PC or even a tablet.

This will enable you to follow the trainer and training presentation on one screen and access the practical sessions on the other. It is not essential as it is possible to use split screen, but the experience may be affected using this method.

## Terminal emulation

You will need to have Terminal emulation software installed on the PC to connect to the practical training equipment, this will require admin rights on the PC – the trainer will be using MobaXterm as you can save usernames and passwords, name the sessions and have all sessions open in the same window, the free/home version is fine so no need to pay for anything and it's best to select the installer option during the install. All demonstrations on connecting to the training system will be done using this platform. There are many terminal emulators available and if you are more comfortable using a different platform you will need to manage the connection to the training system

Links to Terminal Emulation software

- MobaXterm - <https://mobaxterm.mobatek.net/>

- Putty - <https://www.putty.org/>

## Video Conferencing / Screen Sharing

It is recommended that video conferencing be used for at least parts of the training for the best experience. It may be required to share your screen for trouble shooting – full instructions will be given on how to do this at the beginning of the training.

## Training kit

Your training kit will consist of:

- 1 x AT-AR4050s – named **Training-4\_FW**
- 2 x AT-x530-28GPXm – named **Training-4\_x530-1** and **Training-4\_x530-2** respectively

## Connection Details

Your connection details are as follows. In your terminal software connect to: **uk-1.training.alliedtelesis.com**

<b>To connect to:</b> Training-4_FW <b>Username:</b> training41 <b>Password:</b> Welcome4	<b>To connect to:</b> Training-4_x530-1 <b>Username:</b> training42 <b>Password:</b> Welcome4
<b>To connect to:</b> Training-4_x530-2 <b>Username:</b> training43 <b>Password:</b> Welcome4
